

HIV SERVICES DIRECTORY  
Iowa Department of Public Health

## Iowa's Service Delivery System

Private physicians and medical providers are important deliverers of HIV services like testing and treatment in Iowa. As with most healthcare systems, however, there remain gaps in services among people with low incomes, people living in rural areas without access to specialized care, and people who do not access traditional medical care for a number of reasons.

This directory highlights resources that help fill the gaps in HIV-related services in Iowa. The enclosed listings are designed to help people living with and at risk for HIV to locate available assistance with medications, free testing, referrals, housing, or essential health and supportive services.

## Counseling, Testing, and Referral Sites

Counseling, testing, and referral (CTR) sites offer confidential, free or low-cost testing to individuals to determine if they are infected with HIV and/or Hepatitis C. Hepatitis A & B immunizations are also available at most facilities. Risk assessment and prevention information is provided at these CTR sites and for people who test positive, trained counselors refer these individuals to the appropriate care providers. Call for testing hours or to make an appointment.

## Client Services

The Iowa Department of Public Health provides funding to local agencies to assist low-income, HIV-infected individuals with supportive services related to their health care needs. Client service providers are located throughout the state and provide information, referrals, HIV medication adherence assistance, and coordination between health partners. Iowans living with HIV should contact their nearest client services provider to determine if they qualify for help with an array of services including dental care, emergency financial assistance, food, health insurance premiums, co-pays, and deductibles, medical care, mental health counseling, substance abuse outpatient services, and transportation.

## Ryan White HIV/AIDS Clinical Services

The clinics below offer medical care for persons living with HIV/AIDS. They are funded through Part C of the Ryan White HIV/AIDS Treatment Extension Act of 2009. Physicians specializing in HIV care can also be found in private practice. Examples of clinic services (not all clinics offer all services listed) include HIV testing, HIV treatment, clinical trials, primary health care, CD4+ and viral load testing, immunizations, TB testing, pap smears, nutritional counseling, referrals to other specialty care, case management, mental health services, substance abuse treatment, and oral health care.

# HIV/AIDS Service Site Locations

# Housing Opportunities for People With AIDS (HOPWA)

The goal of HOPWA is to assist clients in achieving and maintaining housing stability so as to avoid/reduce homelessness and improve their access to, and engagement in, HIV care and treatment. HOPWA is designed to promote client housing stability and act as a bridge to long-term assistance programs, such as Section 8, or to self-sufficiency. HOPWA funding is provided annually through Congress and assistance is subject to continued availability of funds.

## Other HIV Resources/Services

### AIDS Drug Assistance Program

The Iowa AIDS Drug Assistance Program (ADAP) provides HIV/AIDS medications to low income Iowans living with HIV who need assistance paying for their HIV-related medications. The ADAP has two programs:

#### Medication Assistance Program

The Medication Assistance Program is available to eligible HIV-positive Iowans who don't have access to public or private health insurance that includes prescription drug coverage. ADAP provides these Iowans with medications through a mail-order pharmacy at no cost to the individual.

#### Insurance Assistance Program

The Insurance Assistance program is available to eligible HIV-positive Iowans who have access to cost-effective public or private health insurance with prescription drug coverage. The ADAP may be able to provide financial assistance with health insurance premiums, deductible amounts, and/or medication co-payments.

The current formulary and guidelines and the are available for download at:

[www.idph.state.ia.us/bh/hiv\\_aids.asp](http://www.idph.state.ia.us/bh/hiv_aids.asp)

For more information about applying for ADAP, contact your local client service provider listed on page 3.
