The following instructions outline the process to generate a Benchmark Report Card for childhood and adolescent immunization rates for an individual provider organization compared to the immunization rates of the state and county in which the organization is located. For questions regarding this process, please contact the IRIS Helpdesk at 1-800-374-3958.

**Benchmark Report Card**

To generate a benchmark report card for pediatric and adolescent patients in IRIS, please follow these steps:

1) Select the ‘benchmark report card’ link under the reports section of the menu panel.

   ![Select the ‘benchmark report card’ link under the reports section of the menu panel.](image)

2) Select an evaluation period from the dropdown menu.

   ![Select an evaluation period from the dropdown menu.](image)

3) Select a coverage rate option to generate the benchmark report card for childhood and/or adolescent age ranges. The childhood and adolescent benchmark report cards can be selected at the same time.

   ![Select a coverage rate option to generate the benchmark report card for childhood and/or adolescent age ranges.](image)
4) Select the gender desired for the report. Only one gender option may be selected for the report.

   Select Coverage Rate Option:
   ○ Childhood (2 years Old) Coverage Rates
   ○ Adolescent (13-15 Years Old) Coverage Rates
   ○ Any Gender ○ Female ○ Male ○ Unknown

5) Enter today’s date for the evaluation date:

   Benchmark Coverage Rate Report Request
   Select Evaluation Period:
   2019Q1

   Select Coverage Rate Option:
   ○ Childhood (2 years Old) Coverage Rates
   ○ Adolescent (13-15 Years Old) Coverage Rates
   ○ Any Gender ○ Female ○ Male ○ Unknown

   Select Evaluation Date
   04/16/2019

   Generate  Cancel

6) Select the ‘Generate’ button. The Benchmark Report Card results screen will display. The results page will display the evaluation period and the birth date range for the childhood and adolescent rates. The immunization rates displayed will include the state, county, and the provider organization. The rates include the total number of records evaluated and the percent of patients meeting the benchmarks. To export the results, select the ‘Export as a Spreadsheet’ link. Immunization rates for the state and county will remain constant for the quarter. The immunization rate for the provider organization is determined by the evaluation date and will vary based on the date entered.
# Benchmark Coverage Rate Report Request

What would you like to do with this report?
