

Prevention in Iowa: Addressing Substance Misuse and Problem Gambling

Why is prevention important to Iowans?

- The combined direct and indirect costs of substance use disorders reaches hundreds of billions of dollars annually in the US (health care, crime, law enforcement, motor vehicle crashes and lost productivity).
- The rate of alcohol-related mortality per 100,000 Iowa residents has increased since 2010, similar to national rates.
- Current alcohol use among Iowans 18 and older is higher than the national average, with a widening gap in recent years.
- Binge drinking among Iowans 18 and older remains steady and above the national average.
- Almost one in four adult Iowans knows a person whose gambling may be causing problems.
- Provisionally, in 2020 there were 760 alcohol-involved deaths, 213 opioid-involved deaths (including heroin), and 164 psychostimulant deaths (includes methamphetamine).
- Iowa offers many gambling/gaming opportunities (19 casinos licensed by the [Iowa Racing and Gaming Commission](#), four tribal casinos, [2,400 lottery outlets](#), over [2,200 licensed social, charitable and amusement gambling options](#)), and approximately [5,400 registered amusement devices](#).

Did you know?

Alcohol and problem gambling affect many Iowans — 20% of 11th grade students reported use of alcohol in the past 30 days and 22% of adults reported binge drinking. Approximately 315,000 adult Iowans (13.6%) report experiencing at least one problem with their gambling.

A focus on health equity

Prevention services focus on relevant, culturally appropriate approaches through:

- Use of the Strategic Prevention Framework (SPF) for service planning. The SPF is a five-step planning model that includes a focus on cultural competency and sustainability in each step.
- Use of the National Culturally and Linguistically Appropriate Services (CLAS) standards to implement culturally appropriate prevention services that will advance health equity.

What does the department do?

- Ensures that [primary substance abuse prevention services](#) and [problem gambling prevention services](#) are available to residents of all 99 Iowa counties by funding the Integrated Provider Network to implement [primary substance abuse prevention services](#) and prevention and education services on the risks and responsibilities of gambling.
- Funds 10 organizations to provide [youth development and prevention through mentoring services](#).
- Funds [20 counties to implement substance abuse prevention services](#) through County Boards of Supervisors.
- [Funds services](#) to Iowa's three highest need counties to address and reduce prescription drug misuse for Iowans aged 12 and older.
- Funds nine highest-need counties to reduce licit and illicit drug deaths by implementing evidence-based prevention efforts.
- Funds helpline information, resource and referral services through [Your Life Iowa](#).
- Funds the [Iowa Youth Survey](#) every two years to measure attitudes and experiences of sixth, eighth and eleventh graders. (cont.)

Prevention in Iowa: Addressing Substance Misuse and Problem Gambling

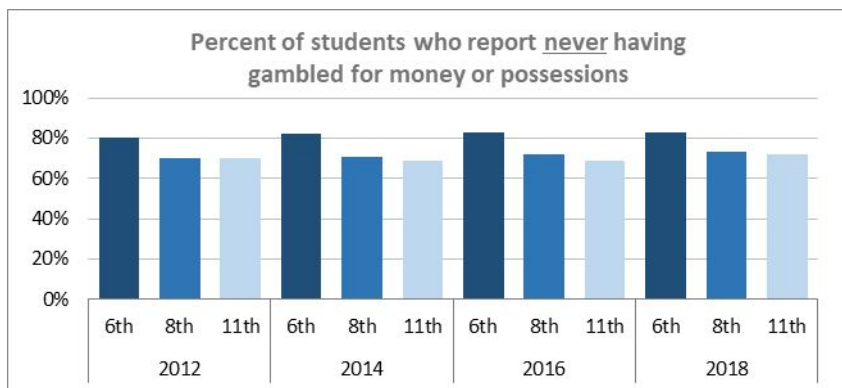

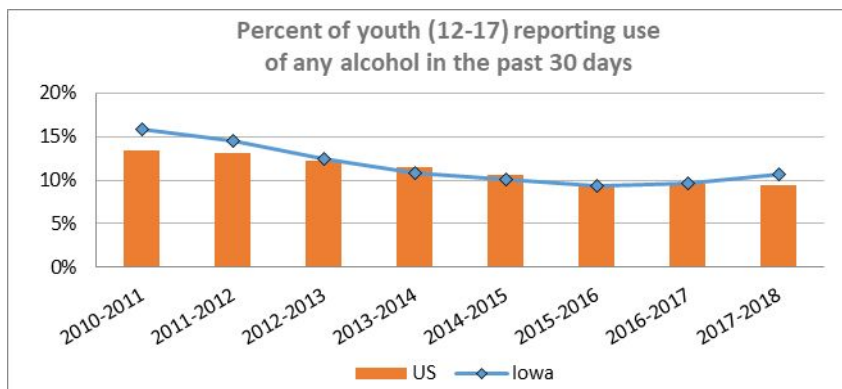

Why is prevention important to Iowans? (cont.)

- The percentage of persons aged 18 or older reporting current cigarette use has decreased since 2013.
- While the rate of illicit, opioids-related overdoses (including heroin) per 100,000 persons is relatively low compared to alcohol-related mortality in Iowa; it is trending lower than rates in the US.
- The perceived risk associated with using alcohol, marijuana and cigarettes among Iowans aged 12 or older has remained steady since 2008.

What does the department do? (cont.)

- Develops and distributes the [Matter of Substance](#) newsletter.
- Funds prevention initiatives and health promotion campaigns to raise awareness of substance misuse and problem gambling.
- Enhances professional development among contracted agencies by providing [Substance Abuse Prevention Skills Training](#).
- Seeks to build and expand the capacity of [mentoring programs](#).
- Shares data and reports via the "[In the Know: Common Data Reports](#)" page.

How do we measure our progress?
