Well Testing Record

Date Sampled: * 01 / 05 / 2015

Sample Collector: * RTell

Laboratory: * STATE HYGIENIC LABORATORY AT U OF I

Coliform Tested: * Yes No

If 'Yes' provide details: * Present Absent
-- Measurement Method -- Level: =

Fecal/E. Coli Coliform Tested: * Yes No

If 'Yes' provide details: * Present Absent
-- Measurement Method -- Level: =

Nitrate Tested: * Yes No

If 'Yes' provide details: * As Nitrate As Nitrogen
-- Measurement Method -- Level: *

Other Contaminants or Parameters Tested:

Contaminant	Level	Reported as:*
-- Contaminant List --	=	mg/L or ppm

Additional information:

2 Ways to Enter Arsenic Test Data

1. As a stand alone test as I just described
2. As part of a suite of testing you performed, ie. BacT, Nitrate, and Arsenic.

As of today, if you enter the Arsenic information as part of a suite of tests and you want to review it at a later date, you will have to know what sample date you logged the analysis to or open each sample log until you find it.

If you enter Arsenic analysis as stand-alone testing, just look for the line in the water tests area that shows “no” to all of the test headers.

Renovations [Add Renovation](#)

There are currently no results.

Water Tests [Add Water Test](#)

	Date Sampled	Date Entry	Coliform Tested	Coliform Present	Fecal Tested	Fecal Present	Nitrate Tested
View	01/22/1999	05/27/2015	Yes	No	Yes	No	Yes
View	01/05/2015	05/27/2015	No	No	No	No	No
View	01/07/2015	05/27/2015	Yes	No	Yes	No	Yes

Plug Information [Add Plug Information](#)

There are currently no results.

If you enter Arsenic analysis as a suite of testing performed, you will need to track the test date separately or open each test to see if it contains the result.

PWTS Arsenic Reports

- As of today, the PWTS does not have a defined arsenic report available to use.
- We are currently working on defining a report form in the database.
- My goal is to have it in-place in the “Reports” tab of PWTS by July 1st.
- Look for more information soon.
