## Immunization Status

All child care employees and providers shall consult with their physician regarding the receipt of age appropriate immunizations in accordance with the current Advisory Committee on Immunization Practices (ACIP) recommended immunization schedule. Individuals involved in the provision of child care often come in contact with very young children, whom may or may not be fully immunized against vaccine-preventable diseases. It is essential every child care employee and provider discuss with their physician the benefits and risks associated with receiving or not receiving all ACIP age appropriate immunizations before becoming involved in a child care setting.

**(PHYSICIAN MUST CHECK ONE AND DATE)**

- □ Patient’s immunization history was reviewed and patient is current with all ACIP recommended immunizations.
- □ Patient received consultation regarding the receipt of age appropriate immunizations in accordance with the current ACIP recommended immunization schedule and declined the following recommended vaccinations:

Date: ____________________________

470-5152 (6/13)
Tuberculosis Screening

All child care employees and providers shall receive a baseline screening for Tuberculosis. Baseline screening shall consist of two components:

1. Assessing for current symptoms of active TB disease.
2. Screening for risk factors associated with TB.

Those individuals identified as belonging to a defined high-risk group or who have signs or symptoms consistent with TB disease shall be evaluated for TB infection and TB disease.

(Physician must complete and check and date both boxes)

☐ TB signs and symptoms screen completed Date: ______________________________
☐ TB risk factor screen completed Date: ______________________________

** Tuberculosis medical consultation and TB medications can be accessed by calling the Iowa Department of Public Health, Tuberculosis Control Program at 515-281-8636 or 515-281-7504.
