IDPH INFORMATION NOTICE 2014-02: **Unauthorized Storage of Licensed Material**

ADDRESSEES

All Specific Radioactive Material Licensees

PURPOSE

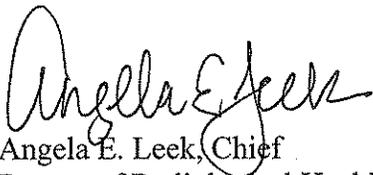

The IDPH is issuing this information notice (IN) to remind addressees of the requirement to apply for and receive a license amendment prior to storing or using licensed material at a location other than the approved location on a State of Iowa Radioactive Materials License.

DESCRIPTION OF CIRCUMSTANCES

IDPH recently has been made aware of several licensees who have changed facility locations. Therefore the storage and use location of licensed material was changed without applying for and receiving a license amendment from the Agency. This is in violation of Iowa Administrative Code (IAC) 641-39.4(32) "c" which states that "each person licensed by the agency pursuant to this chapter shall confine use and possession of the material licensed to the locations and purposes authorized in the license". Violations of IAC 641-39.4(32) "c" may result in escalated enforcement actions against the licensee including possible civil penalties in accordance with 136C.4 and 136C.5 of Chapter 136C, the Iowa Code.

CONTACT

This IN requires no specific action or written response. If you have any questions about the information in this notice, please contact this office.
