MANDATORY BLOOD LEAD TESTING
QUESTIONS & ANSWERS
FOR KINDERGARTEN SCHOOL PROGRAM

It is the beginning of the 2021-2022 school year and we would like to offer the school kindergartners’ program, a list of questions and answers regarding the Mandatory Blood Lead Testing in Iowa.

What is the kindergartner blood lead testing match about?
Since July 1, 2008, the legislature requires all children entering kindergarten to have at least one lead test (IAC 641, Chapter 67). You can find the legislation at https://www.legis.iowa.gov/docs/iac/chapter/05-19-2021.641.67.pdf. We match the names of your kindergartners with the names of all kindergartners who shows at least one blood lead test in our database.

How would the process work for the kindergartner blood lead data collection of 2021-2022?
It will work as it has previous years. We will send you a regular email with an instructions attachment to be filled it out with your students’ and school’s information. After we receive this information from you, the Iowa Department of Public Health completes an electronic match with our database. After the match is completed, the Department will send a list back to your school with a list of children who did not have a match in our database meaning that they may need a blood lead test.

What is the period for this process?
- Collection of data: From September 7, 2021 to November 30, 2021
- Results from IDPH to schools: Middle of January 2022
- Letter from schools to parents: Middle of January 2022

Who are the kindergartners that I need to report for this blood lead data match?
All kindergartners enrolled on the 2021-2022 school year, regardless if they are home schooling, have or not a blood lead test, or have requested an IDPH exemption.

Can children in pre-kindergarten, junior kindergarten, etc. be part of the data collection?
No, the requirement does not apply to them.
Would my school need to collect blood lead tests from kindergartners?
No, unless your school chooses to. You are not required to collect blood lead tests prior, during or after your kindergartners is enrolled in the new school year.

If my Kindergartner received a blood lead test at early age, would he/she need to be retested?
No, there is no need of an additional test.

If a parent states that, his/her kindergartner does not need a blood lead test, what should I do?
Have them contact us by the emails and phone numbers below.

I will not be involved with the kindergartner’s school data for this school year, what should I do?
Have your school contact us with the new person’s contact information.
