

Iowa Training Project for Child Care Nurse Consultants Training FY22

The ITPCCNC Course is completed through distance learning.

Instructor: Deb Gimer, RN BSN

Target Audience:

Iowa registered nurses (RN) working with early childhood care and education providers through the Title V Maternal Health and Child & Adolescent Health (MCAH) Agencies; public health and local Early Childhood Iowa Areas in cooperation with the MCAH Agencies.

Background of Child Care Nurse Consultants and Statement of Purpose:

Child care nurse consultants (CCNC) are RNs who provide visits, consultation, training, and technical assistance to early childhood care and education providers. The ITPCCNC is the required initial training program for CCNCs and the purpose of the course is to expand the RN's knowledge and skills to work with early childhood care and education providers.

Educational Objectives:

Each course module contains learning objectives specific to the module topic. Overall course objectives are below.

Registered Nurses will be able to:

- Identify the components for best practices in health and safety in Early Care and Education (ECE) programs
- Assess the quality of health and safety policy and practices in ECE programs
- Consult with ECE providers to improve health and safety in their businesses
- Identify community partners and resources to assist in improving the quality in ECE environments
- Identify the role of public health principles and practices in child care
