

Substance Abuse Problem Gambling Programs Funded by the Iowa Department of Public Health:  
December 2016

---

The following is a listing of substance abuse problem gambling programs funded by the Iowa Department of Public Health as of December 2016, sorted by county and, in the case of multiple offices in the same county, further sorted by city or town. In the case of multiple offices in the same city or town, only the main office is listed. While a program must provide services to residents in each county in its service area, it is not required to have an office in each county. If there is no program office in a county, the program's main office location is listed.
