Teen Post-Survey

This survey will aid Generation Rx in understanding and strengthening teens comprehension of education materials. The purpose of this survey is to measure the awareness, content knowledge, and teens' application of Generation Rx materials.

Instructions: Fill in each circle completely using the following example

Marking Instructions:
<ul style="list-style-type: none">• If you make a mistake be sure to erase your answer completely.• Please fill in each circle completely using the following example:
Like this: <input checked="" type="radio"/> Not like this: <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/>

Attention Survey Administrator

This page provides directions that your teens will need to complete the survey. The first set of directions should be used if the survey is going to be read aloud to the entire group. Please note that all information to be read aloud to teens is printed in bold type. Information for you, as the survey administrator, is printed in italics.

Teen Survey Directions:

Prior to passing out the survey, the Survey Administrator should determine what teens should do with their survey and how to spend their time if they finish early.

Today you are answering the following questions to help us better understand what you have learned from the Generation Rx education. Your answers will help us improve the education materials in the future. Please answer the questions as honestly as you can. There are no right or wrong answers; your answers will not be graded or connected to you. (Assuring teens that their answers are confidential is appropriate at this time). Try to answer every question. If a question bothers you or you do not want to answer it, just skip it. Once again, be as honest as you can as you answer the questions.

Be sure to use a dark pencil and fill in only one circle per question. If you make a mistake, be sure to erase your answer completely. Please read the directions before each section. Also, please read each question carefully before you respond. You can proceed at your own pace. When you have finished... (Tell teens what they are to do when they have completed the survey).

Generation Rx Teen Post-Survey

Understanding of Prescription Medications. Please read each statement and fill in the circle that best shows your answer.

	False	Somewhat False	Neither True or False	Somewhat True	True
1. Prescription medications can help us, but only when used as directed by a healthcare professional.	<input type="radio"/>				
2. Misuse of prescription medications is currently a nationwide problem.	<input type="radio"/>				
3. Taking a prescription medication not meant for me is illegal.	<input type="radio"/>				
4. Taking more of a prescription medication than prescribed is an example of medication misuse.	<input type="radio"/>				
5. Sharing or taking someone else’s prescription medication is an example of medication misuse.	<input type="radio"/>				
6. When we don’t follow instructions, we increase the likelihood of negative side effects, including developing a dependency on some medications.	<input type="radio"/>				
7. Prescription medications are safer to misuse than illegal “street” medications.	<input type="radio"/>				
8. The majority of teens misuse prescription medications.	<input type="radio"/>				
9. The instructions on the dose (or how much of a medication should be taken) is the only thing included on a prescription medication label.	<input type="radio"/>				

Confidence in Ability. Please read each statement and decide how strongly you agree or disagree with the statement. Fill in the circle that best shows your answer.

“I am confident in my ability to...”	Strongly Disagree	Somewhat Disagree	Neutral	Somewhat Agree	Strongly Agree
10. Say no when someone asks me to misuse a prescription medication.	<input type="radio"/>				
11. Select positive alternatives to coping with the demands of life rather than misusing prescription medications.	<input type="radio"/>
