Care for Yourself

The Iowa Breast & Cervical Cancer Early Detection Program

If you're a woman aged 40-64 years with a household income at 250 percent of the Federal Poverty Level, you may qualify for free mammograms and Pap tests. Regular screening is an action to keep you healthy. These screenings can detect breast and cervical cancer in its earliest stages, when it is most treatable. Questions about the program? Contact Beth Hacker to see if you qualify. Hurry, before funds run out!

It's time to take care of yourself. You're worth it.

The Iowa Breast and Cervical Cancer Early Detection Program is a special service for women age 40 and older sponsored by the Iowa Department of Public Health with funds provided by the Centers for Disease Control. This material is supported in part by Cooperative Agreement NU58DP006327-01 funded by the Centers for Disease Control and Prevention. Its contents are solely the responsibility of the authors and do not necessarily represent the official views of the Centers for Disease Control and Prevention of the Department of Health and Human Services.
