<p>“There is no one industry, group or individual that is going to make the greatest lasting impact in cancer control. It takes researchers, public health, advocates, health care providers, communities, workplaces – <i>all Iowans</i> – to make the biggest change and the most improvement. The Iowa Cancer Plan outlines how we can all work together to do just that.” (Kelly Wells-Sittig, Executive Director, Iowa Cancer Consortium) <a href="http://bit.ly/2z0gaiu">http://bit.ly/2z0gaiu</a></p>	<p>"It takes researchers, #PublicHealth, advocates, health care providers, communities, workplaces - all #Iowans - to make the biggest change...the #IowaCancerPlan outlines how we can all work together to do just that." <p>“We owe it to the people of Iowa to do everything we can to work together to further reduce the burden of cancer now and for future generations. This plan describes how,” said Dr. George Weiner, MD, President of the Iowa Cancer Consortium Board of Directors. Check out the 2018-2022 Iowa Cancer Plan: <a href="http://bit.ly/2z0gaiu">http://bit.ly/2z0gaiu</a></p>	<p>"We owe it to the people of Iowa to do everything we can to work together to further reduce the burden of cancer now and for future generations. <p>Cancer survivors, educators, media, public policy advocates – ALL Iowans – can use the 2018-2022 Iowa Cancer Plan to guide their work in cancer control for the next five years. <a href="http://bit.ly/2z0gaiu">http://bit.ly/2z0gaiu</a></p>	<p>#Cancer survivors, educators, media, public policy advocates – ALL Iowans – can use the 2018-2022 #IowaCancerPlan to guide their work in cancer control for the next five years. <a href="http://bit.ly/2z0gaiu">http://bit.ly/2z0gaiu</a></p>
<p>Cancers caused by tobacco and secondhand smoke, excessive alcohol consumption and certain viruses are highly preventable. The 2018-2022 Iowa Cancer Plan includes goals that are proven to lower the likelihood of certain cancers occurring. <a href="http://bit.ly/2z0gaiu">http://bit.ly/2z0gaiu</a></p>	<p>#Cancers caused by #tobacco and secondhand smoke, excessive alcohol consumption and certain viruses are highly preventable. The 2018-2022 #IowaCancerPlan includes goals that are proven to lower the likelihood of certain cancers occurring. <a href="http://bit.ly/2z0gaiu">http://bit.ly/2z0gaiu</a></p>
<p>When cancer is detected at its earliest stages, treatment is often more effective and survival more likely. The 2018-2022 Iowa Cancer Plan addresses individual, provider and community policy approaches to increase early detection of cancer. <a href="http://bit.ly/2z0gaiu">http://bit.ly/2z0gaiu</a></p>	<p>When #cancer is detected at its earliest stages, treatment is often more effective and survival more likely. <p>When cancer is found, an individual’s survival and quality of life can depend on the availability of timely, quality treatment. The 2018-2022 Iowa Cancer Plan identifies barriers to quality treatment at the community and system levels. <a href="http://bit.ly/2z0gaiu">http://bit.ly/2z0gaiu</a></p>	<p>When #cancer is found, an individual’s survival and quality of life can depend on the availability of timely, quality treatment. <p>Treating cancer can cause a variety of short- and long-term effects that can impact not only the patient, but also those close to them. The 2018-2022 Iowa Cancer Plan addresses quality of life issues throughout a person’s experience with cancer. <a href="http://bit.ly/2z0gaiu">http://bit.ly/2z0gaiu</a></p>	<p>Treating #cancer can cause a variety of short- and long-term effects that can impact not only the patient, but also those close to them.
