

Naloxone Request Form for Law Enforcement Agencies

To complete the process of requesting a naloxone (Narcan nasal) kit for interested law enforcement officers, agencies must complete two forms. The first is this request form, indicating your acceptance of the following criteria. The second is an excel spreadsheet where you will list the officers for whom you are requesting kits (limit of one kit per officer). Completed forms are to be emailed to RaChel Greenwood at rachel.greenwood@idph.iowa.gov.

- 1) The law enforcement agency understands the essential components of opioid-related overdose, appropriate overdose response, naloxone storage conditions, and naloxone administration.
- 2) The law enforcement agency will provide training on proper naloxone administration to anyone allowed to administer naloxone purchased by the department through this agreement.
- 3) The law enforcement agency understands that naloxone provided through this request cannot be distributed or redistributed in any way (given away, sold, traded, etc.) to anyone outside the agency and is intended only for use by the officers requested.

By signing this request, I attest that I understand and agree to the criteria specified above and further attest that I have the authority to represent the law enforcement agency named below.

Name of the Law Enforcement Agency: _____

Mailing Address (for naloxone): _____

Printed Name – Law Enforcement Agency Representative: _____

Signature – Law Enforcement Agency Representative: _____

Date: _____
