What is Tai Chi?

Tai chi originates from ancient China and is now practiced throughout the world as a means to improve quality of life. Tai chi can be done almost anywhere and is suitable for individuals at all fitness levels.

Why Tai Chi for Arthritis?

Tai Chi for Arthritis (TCA) is a program designed by Dr. Paul Lam, with a team of medical experts and tai chi masters. The TCA program is easy to learn, safe and effective.

Research indicates that participation in weekly, community-based tai chi classes can reduce falls in community-dwelling older adults and suggests TCA is an effective and sustainable public health intervention for falls prevention.

The Iowa Falls Prevention Coalition and Iowa Departments of Aging and Health desire to increase the number of tai chi classes offered across Iowa, so more certified TCA instructors are needed. Please consider joining us to decrease falls and improve health by becoming a certified TCA instructor.

Because this training is sponsored by grants we are able to offer a reduced registration fee of $100 if participants are willing to complete extra required practice sessions, offer three workshops in the next two years and submit participant data to the Iowa Dept. of Public Health. If you are unable or unwilling to commit to these terms, you may still register but your fee will be $375.

About Master Trainer

Linda Ebeling

Linda Ebeling's tai chi journey began with the study of Qigong and the Five Animal Frolics.

Her current practice includes Sun, Yang and Chen style tai chi as well as several forms of Qigong. A movement and fitness instructor for over 16 years, Linda also has a teaching background in Secondary Education.

She is a Master Trainer for Tai Chi for Health, and served on the board of Tai Chi for Health Community for 6 years and was the Scholarship Committee Chairperson for TCHC from 2013 - 2017. One of the few certified instructors of Radiant Lotus Qigong in the US, she is also a former member of the MS Wellness Professionals Task Force. Linda likes to help her students discover how Taiji and qigong can empower them to take an active role in bringing balance to their health and lives.

Tai Chi for Health Institute is approved to provide CE hours for the American College of Sports Medicine (ACSM). These CE's are approved for ACSM-certified professionals and many medical and allied health care professionals. Certificates with CE hours for certain professional certification and licensure renewals are available for $30 (to be paid at the workshop).

This project is supported in part by grant # 90FP0030, financed solely by Prevention and Public Health Funds, from the U.S. Administration for Community Living, Administration on Aging, Department of Health and Human Services, Washington, D.C. Points of view or opinions do not, therefore, necessarily represent official Administration for Community Living policy.

Tai Chi for Arthritis & Falls Prevention Instructor Training Workshop

Facilitated by Master Trainer Linda Ebeling

January 27 -28, 2018

Independence, IA

(Recertification on January 28)

Continuing Education Credits Available
Who Should Attend the TCA Instructor Training Workshop?

This workshop is designed for tai chi teachers or advanced students; occupational or physical therapists; health professionals (RN, MD, ATC, DC, etc.); certified exercise instructors or fitness trainers; and other individuals with similar health and fitness backgrounds.

What Will Participants Learn?

After this workshop, participants will be able to:

- Demonstrate the TCA form and its warm-up and cool-down;
- Describe practical ways to integrate tai chi principles into existing interventions, exercises and activities;
- Differentiate ways to safely modify tai chi movements for an individual's capabilities and limitations;
- Demonstrate how to teach tai chi, or any therapeutic movements, using the Stepwise Progressive Teaching Method; and
- Describe ways to use sequenced tai chi movements to help improve physical and psychological functional performance.

Steps to Becoming a TCA Instructor

1. Watch TCA DVD and practice forms before attending the TCA Instructor Training Workshop.
2. Obtain a valid CPR certificate from an accredited course before teaching a TCA class.
3. Pass the workshop post-test.
4. Achieve 32 hours of practicing the form after attending the workshop:
   - 16 hours under a TCA-certified instructor
   - 16 hours of practice with DVD
