

IRIS/VFC Webinar Schedule: Influenza Vaccine Prebook and Order Receiving in IRIS August-September 2016

The following schedule provides dates, times and details for 2016 IRIS/VFC webinars about managing seasonal influenza vaccine in IRIS.

Course Description:

IRIS now includes new functionality to prebook, monitor and receive seasonal influenza vaccine. Beginning with the 2016-2017 influenza season, all VFC flu vaccine orders and shipments will be tracked in IRIS. The process to receive the 2016-2017 influenza vaccine shipments will now be similar to receiving other VFC vaccine shipments. Providers will not need to manually add influenza vaccine into IRIS inventory. The following webinars are available to review the process to receive influenza vaccine.

Target Audience:

Primary and Back-Up VFC Vaccine Coordinators should attend. Other staff responsible for managing VFC vaccine inventory in IRIS should also attend. This training is not required but will provide valuable information about receiving VFC shipments of 2016-2017 seasonal influenza vaccine and how to manage influenza vaccine in IRIS.

Wednesday, August 31st, 9:00 AM – 10:00 AM	REGISTER
Thursday, September 1st, 10:30 AM – 11:30 AM	REGISTER
Wednesday, September 7th, 12:00 PM – 1:00 PM	REGISTER
Tuesday, September 13th, 12:00 PM – 1:00 PM	REGISTER

For questions about IRIS or this training, please call the IRIS Help Desk at 800-374-3958.

For questions about the Vaccines for Children Program or prebooking seasonal influenza vaccine, please call the VFC Program at 800-831-6293 ext. 4.
