

# HIV and HCV Prevention Program Snapshot

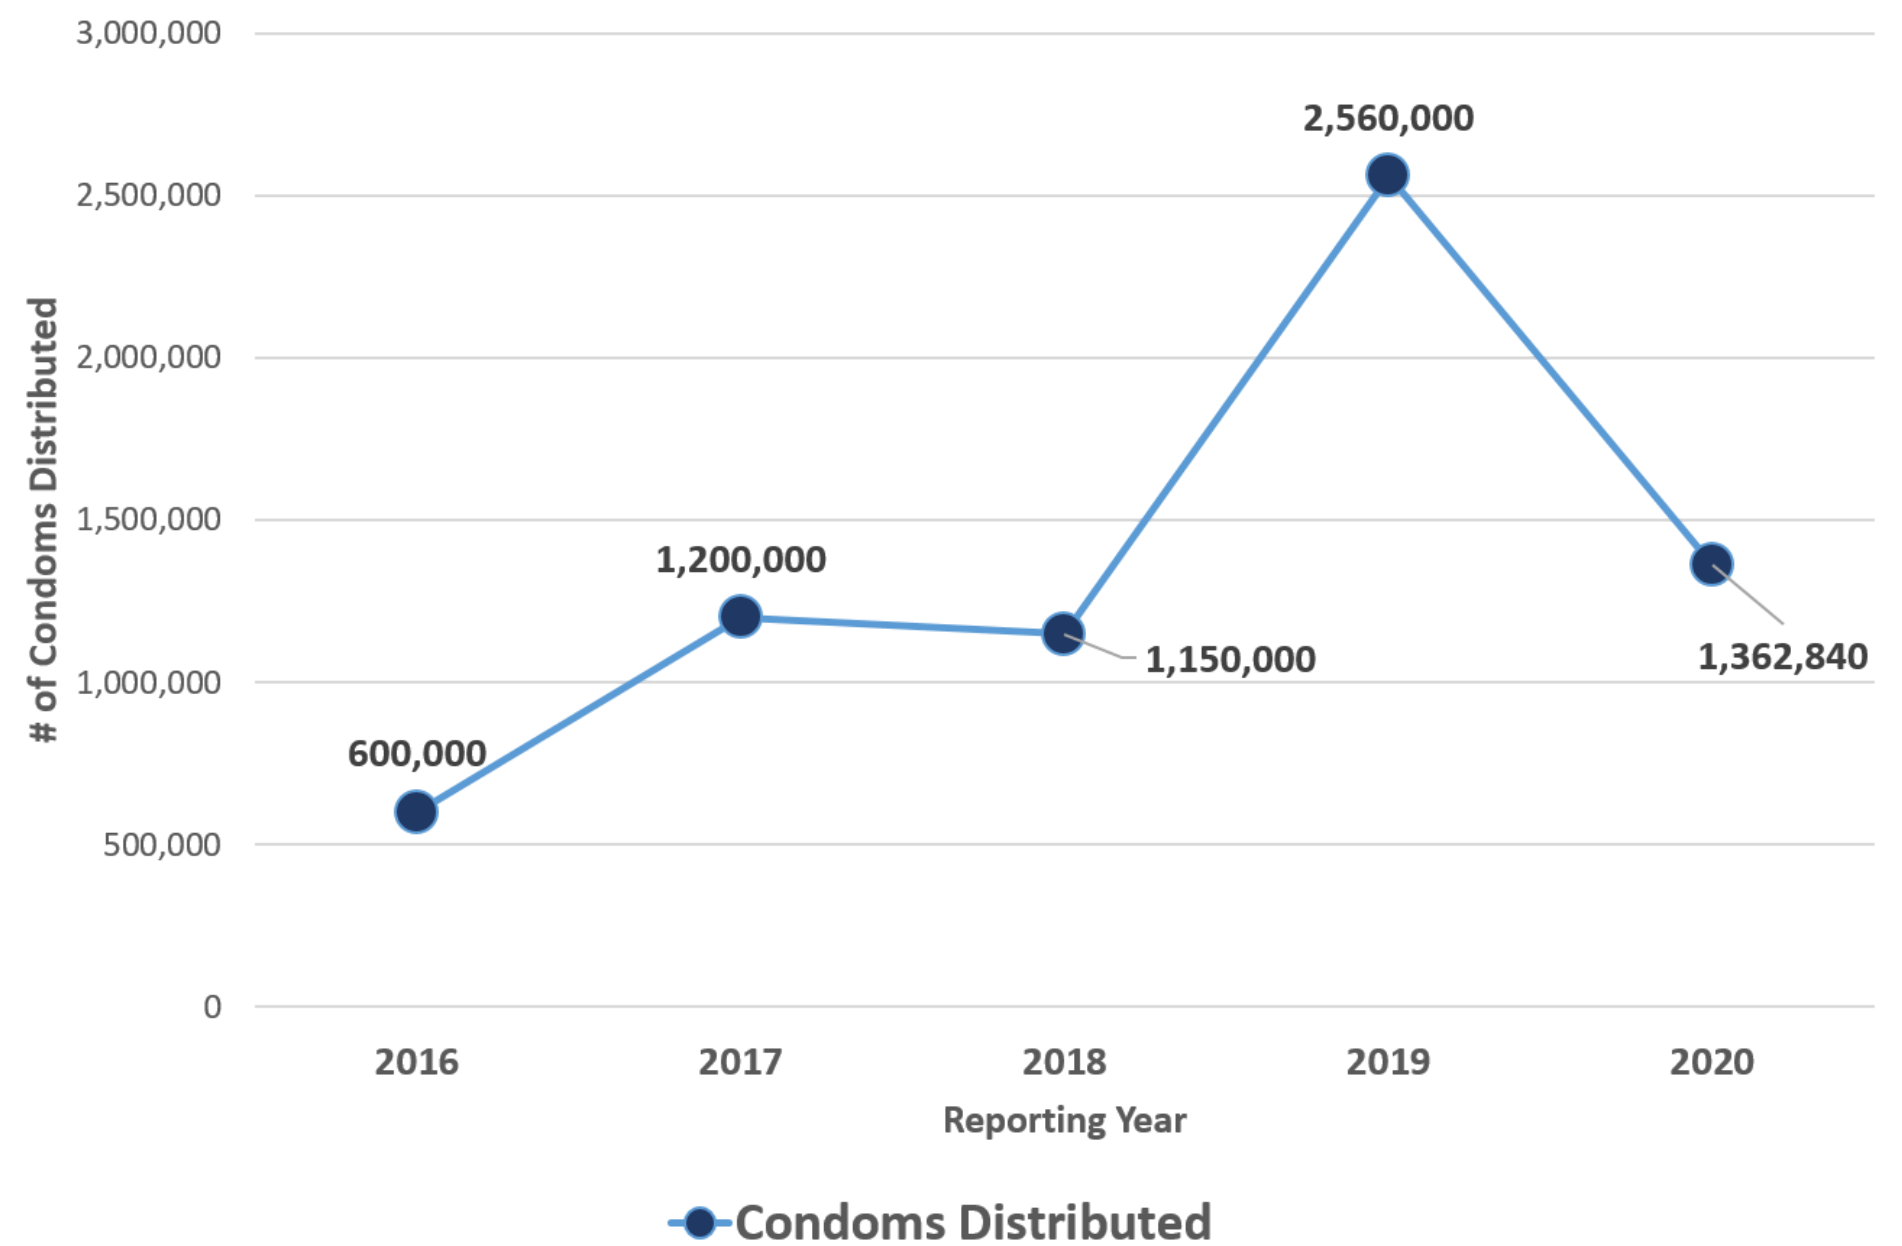

## Condom Distribution: 2020

The Bureau of HIV, STD, and Hepatitis reported an annual distribution of **1,362,840** condoms statewide in partnership with **416** organizations.

- This represents a **47% decrease in total distribution** from the high in 2019.
- The number of participating organizations **increased by 33%** during 2020.

While the COVID-19 pandemic played a role in limiting total condom distribution, programs worked to engage new partners to ensure that condom access points continued to expand.
