For non-healthcare, non-residential settings, quarantine is no longer recommended if a potential exposure occurs while both the infectious individual and the close contacts are wearing face coverings consistently and correctly.

- In all scenarios below, an individual is considered a close contact when they have been within 6 feet of the COVID-19 positive individual for 15 minutes.
- Individuals who are a close contact due to exposure to a household member are required to quarantine for at least 14 days. Quarantine is used to keep someone who might have been exposed to COVID-19 away from others.
- Individuals who have COVID-19 must isolate for at least 10 days. Isolation keeps someone who is infected with the virus away from others, even in their home.

### Everyone Masked

When a masked individual tests positive and close contacts were wearing masks...

- **ISOLATE**
  - COVID Positive
- **SELF-MONITOR**
  - Close Contacts

### Close Contacts Masked

When an unmasked individual tests positive and close contacts were wearing masks...

- **ISOLATE**
  - COVID Positive
- **QUARANTINE**
  - Close Contacts

### Some Close Contacts Masked

When a masked individual tests positive and SOME close contacts were wearing masks...

- **ISOLATE**
  - COVID Positive
- **QUARANTINE**
  - Close Contacts

### No One Masked

When an unmasked individual tests positive and close contacts were NOT wearing masks...

- **ISOLATE**
  - COVID Positive
- **QUARANTINE**
  - Close Contacts
