HOW TO ADD WITS AS A TRUSTED SITE (IE and CHROME)

-Here, add your normal WITS URL as well as the STS URL. I used a QA site here as an example, but your STS URL can be located when you log in to your Production site and click 'ok'. You will notice STS will appear in the URL and you can copy and paste that information into the website zone to add.

-Close the window

Your browser is now set up properly
