APPENDIX A

Simulated Calls - First Month Check-in

Foundation 2

IPN Network

- All IPN providers received at least 1 call.
- Half of callers (n=21) who reached their assigned agency were provided information about how to receive an evaluation.
- First come, first served evaluations by either walk-in (n = 11) or calling the clinic as soon as they open (n = 4).
- Needed to first complete paperwork online or via email before scheduling an evaluation (n = 4).
- 8 were offered an appointment.
 - Appointments offered within 1 to 13 days.
- 200 total calls to be made in two phases (October-February). UNI-CSBR will continue to update IDPH and whether any results warrant suspension of calls to allow for QI activities.
