Progress notes: There was an increase in activity for the Free Clinic in 2017 the clinic served 390 people. In 2016 the clinic worked very hard each night screening people and getting eligible people signed up for medicaid when the Affordable Care Act was established. In 2017 they are seeing the "working poor" people or families who are employed but simply can't afford or don't have access to health insurance. The largest age group is the 46-64 range, many are working 2 part-time jobs that have

no benefits.
