Objective 1-3 Increase influenza vaccination rates of Iowa County residents by 2020.

Baseline Year	Baseline Value	Target Year	Target Value
2015	58%	2020	68%

Report Date
Jun 3, 2019

Year	2019
Value	31%

Progress on Objective			
<input type="checkbox"/> Met, trend in right direction	<input checked="" type="checkbox"/> Not met, trend in right direction		
<input type="checkbox"/> Met, no trend	<input type="checkbox"/> Not met, no trend		
<input type="checkbox"/> Met, trend in wrong direction	<input type="checkbox"/> Not met, trend in wrong direction		

Progress notes: Noticed a marked decrease of influenza vaccinations given by the Iowa County Health Department. Contributing factors: increased availability of walk-in flu clinics at pharmacies (Wal-Mart, Walgreen's, Hy-Vee, etc.). Pharmacies not entering into IRIS. Also seen an increase in local area clinics that do not utilize IRIS secondary to EHR incompatibility. Provide IRIS information to local area pharmacies.

Strategy 1-3.1 Increase the percent of adults (> 18 years of age) who are in IRIS with a valid zip code who received the annual influenza vaccine by at least 10 percent.

Strategy Type
Long-Lasting Protective Intervention
