Families with Children

According to the most recent American Community Survey estimates, 29.19% of all occupied households in the report area are

family households with one or more child(ren) under the age of 18. As defined by the US Census Bureau, a family household is any housing unit in which the householder is living with one or more individuals related to him or her by birth, marriage, or adoption. A non-family household is any household occupied by the householder alone, or by the householder and one or more unrelated individuals.

Population with Any Disability

This indicator reports the percentage of the total civilian non-institutionalized population with a disability. The report area has a total population of 10,098 for whom disability status has been determined, of which 1,019 or 10.09% have any disability. This indicator is relevant because disabled individuals comprise a vulnerable population that requires targeted services and outreach by providers.

Population in Limited English Households

This indicator reports the percentage of the population aged 5 and older living in Limited English speaking households. A “Limited English speaking household” is one in which no member 14 years old and over 86 speaks only English at home or 0.89% speaks a language other than English at home and speaks English “Very well.” This indicator is significant as it identifies households and populations that may need English-language assistance.

| Report Area | Total Population Age 5+ | Linguistically Isolated Population | Linguistically Isolated Population, Percent |

Population with Limited English Proficiency

This indicator reports the percentage of the population aged 5 and older who speak a language other than English at home and speak English less than "very well." This indicator is relevant because an inability to speak English well creates barriers to healthcare access, provider communications, and health literacy/education.

| Report Area | Population Age 5+ | Population Age 5+ with Limited English Proficiency | Population Age 5+ with Limited English Proficiency, Percent |

Population Geographic Mobility

This indicator reports information about population in-migration by assessing changes in residence within a one year period. Of the 10,184 persons residing in the report area, an estimated 3.84% relocated to the area, according to the latest American Community Survey 5-year estimates. Persons who moved to a new household from outside of their current county of residence, from outside their state of residence, or from abroad are considered part of the in-migrated population. Persons who moved to a new household from a different household within their current county of residence are not included.

| Report Area | Total Population | Population In-Migration | Percent Population In-Migration |
|---------------------|------------------|-------------------------|---------------------------------|
| Franklin County, IA | 10,184 | 391 | 3.84% |
| Iowa | 3,094,074 | 206,199 | 6.66% |
| United States | 319,157,088 | 19,865,252 | 6.22% |

Foreign-Born Population

This indicator reports the percentage of the population that is foreign-born. The foreign-born population includes anyone who was not a U.S. citizen or a U.S. national at birth. This includes any non-citizens, as well as persons born outside of the U.S. who have become naturalized citizens. The native U.S. population includes any person born in the United States, Puerto Rico, a U.S. Island Area (such as Guam), or abroad of American (U.S. citizen) parent or parents. The latest figures from the U.S. Census Bureau show that 275 persons in the report area are of foreign birth, which represents 2.68% of the report area population. This percentage is less than the national average of 13.48%.

| Report Area | Total Population | Naturalized U.S. Citizens | Population Without U.S. Citizenship | Total Foreign-Birth Population | Foreign-Birth Population, Percent of Total Population |

Urban and Rural Population

This indicator reports the percentage of population living in urban and rural areas. Urban areas are identified using population density, count, and size thresholds. Urban areas also include territory with a high degree of impervious surface (development). Rural areas are all areas that are not urban. Of the report areas 10,680 population, 4,246 or 39.76% of the population is classified urban while 6,434 or 60.24% is rural.

Social & Economic Factors

Children Eligible for Free/Reduced Price Lunch

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under 130% (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 1,849 total public school students in the report area, 983 were eligible for the free or reduced price lunch program in the latest report year. This represents 53.2% of public school students, which is higher than the state average of 42.5%.

| Report Area | Total Students | Students Eligible for Free or Reduced Price Lunch | Students Eligible for Free or Reduced Price Lunch, Percent |

Head Start

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.

This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2018 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 1 Head Start programs with a rate of 14.88% per 10,000 children under 5 years old.

| Report Area | Children Under Age 5 | Total Head Start Programs | Head Start Programs, Rate (Per 10,000 Children) |

High School Graduation Rate (EdFacts)

The adjusted cohort graduation rate (ACGR) is a graduation metric that follows a “cohort” of first-time 9th graders in a particular school year, and adjust this number by adding any students who transfer into the cohort after 9th grade and subtracting any students who transfer out, emigrate to another country, or pass away. The ACGR is the percentage of the students in this cohort who graduate within four years. In the report area, the adjusted cohort graduation rate was 93.0% during the most recently reported school year. Students in the report area performed better than the state, which had an ACGR of 91.1%.

| Report Area | Adjusted Student Cohort | Number of Diplomas Issued | Cohort Graduation Rate |
|---------------------|-------------------------|---------------------------|------------------------|
| Franklin County, IA | 128 | 119 | 93.0% |
| Iowa | 35,353 | 32,198 | 91.1% |
| United States | 3,180,487 | 2,778,988 | 87.4% |

High School Graduation Rate by Year, 2012-13 through 2017-18

The table below shows local, state, and national trends in cohort graduation rates.

Note: Data for some states are omitted each year when they fail to meet federal reporting standards or deadlines. Use caution when comparing national trends as the "universe" population may differ over time.

| Report Area | 2012-13 | 2013-14 | 2014-15 | 2015-16 | 2016-17 | 2017-18 |
|---------------------|---------|---------|---------|---------|---------|---------|
| Franklin County, IA | 94.8% | 93.0% | 93.1% | 90.7% | 94.2% | 93.0% |
| Iowa | 89.3% | 90.3% | 90.3% | 90.8% | 90.6% | 91.1% |
| United States | 83.2% | 84.3% | 84.3% | 86.1% | 86.8% | 87.4% |

High School Graduation Rate (NCES)

Within the report area 93.90% of students are receiving their high school diploma within four years. This is greater than the Healthy People 2020 target of 82.4%. This indicator is relevant because research suggests education is one the strongest predictors of health (Freudenberg & Ruglis, 2007).

| Report Area | Average Freshman Base Enrollment | Estimated Number of Diplomas Issued | On-Time Graduation Rate |
|---------------------|----------------------------------|-------------------------------------|-------------------------|
| Franklin County, IA | 143.00 | 135.00 | 93.90 |
| Iowa | 39,571.00 | 33,926.00 | 85.7 |
| United States | 4,024,345.00 | 3,039,015.00 | 75.50 |

Housing Cost Burden (30%)

This indicator reports the percentage of the households where housing costs exceed 30% of total household income. This indicator provides information on the cost of monthly housing expenses for owners and renters. The information offers a measure of housing affordability and excessive shelter costs. The data also serve to aid in the development of housing programs to meet the needs of people at different economic levels. Of the 4,200 total households in the report area, 743 or 17.69% of the population live in cost burdened households.

| Report Area | Total Households | Cost Burdened Households (Housing Costs Exceed 30% of Income) | Cost Burdened Households, Percent |
|---------------------|------------------|---------------------------------------------------------------|-----------------------------------|
| Franklin County, IA | 4,200 | 743 | 17.69% |

Cost Burdened Households by Tenure, Total

These data show the number of households that spend more than 30% of the household income on housing costs. In the

report area, there were 743 cost burdened households according to the U.S. Census Bureau American Community Survey (ACS) 2014-2018 5-year estimates. The data for this indicator is only reported for households where household housing costs and income earned was identified in the American Community Survey.

| Report Area | Cost Burdened Households | Cost Burdened Rental Households | Cost Burdened Owner Occupied Households (With Mortgage) | Cost Burdened Owner Occupied Households (With No Mortgage) |

Income - Families Earning Over \$75,000

In the report area, 40.32%, or 1,196 families report a total annual income of \$75,000 or greater. Total income includes all reported income from wages and salaries as well as income from self-employment, interest or dividends, public assistance, retirement, and other sources. As defined by the US Census Bureau, a family household is any housing unit in which the householder is living with one or more individuals related to him or her by birth, marriage, or adoption. A non-family household is any household occupied by the householder alone, or by the householder and one or more unrelated individuals.

| Report Area | Total Families | Families with Income Over \$75,000 | Percent Families with Income Over \$75,000 |

Income - Inequality (GINI Index)

This indicator reports income inequality using the Gini coefficient. Gini index values range between zero and one. A value of one indicates perfect inequality where only one house-hold has any income. A value of zero indicates perfect equality, where all households have equal income.

Index values are acquired from the 2014-18 American Community Survey and are not available for custom report areas or multi-county areas.

| Report Area | Total Households | Gini Index Value |

Insurance - Population Receiving Medicaid

This indicator reports the percentage of the population with insurance enrolled in Medicaid (or other means-tested public health insurance). This indicator is relevant because it assesses vulnerable populations which are more likely to have multiple health access, health status, and social support needs; when combined with poverty data, providers can use this measure to identify gaps in eligibility and enrollment.

Insurance - Uninsured Adults

The lack of health insurance is considered a *key driver* of health status.

This indicator reports the percentage of adults age 18 to 64 without health insurance coverage. This indicator is relevant because lack of insurance is a primary barrier to healthcare access including regular primary care, specialty care, and other health services that contributes to poor health status.

| Report Area | Total Population Age 18 - 64 | Population with Medical Insurance | Percent Population With Medical Insurance | Population Without Medical Insurance | Percent Population Without Medical Insurance |

Franklin County, IA

Lack of Social or Emotional Support

This indicator reports the percentage of adults aged 18 and older who self-report that they receive insufficient social and emotional support all or most of the time. This indicator is relevant because social and emotional support is critical for navigating the challenges of daily life as well as for good mental health. Social and emotional support is also linked to educational achievement and economic stability.

| Report Area | Total Population Age 18+ | Estimated Population Without Adequate Social / Emotional Support | Crude Percentage | Age-Adjusted Percentage |
|---------------------|--------------------------|------------------------------------------------------------------|------------------|-------------------------|
| Franklin County, IA | 8,175.00 | 1,161 | 14.20% | 12.90% |
| Iowa | 2,307,562.00 | 355,365 | 15.40% | 15.30% |
| United States | 232,556,016.00 | 48,104,656 | 20.70% | 20.70% |

Percent Adults Without Adequate Social / Emotional Support (Age-Adjusted)

Inadequate Social/Emotional Support, Percent of Adults Age 18+ by County, BRFSS 2006-12

Population Receiving SNAP Benefits (ACS)

In the report area, an estimate 455 or 10.83% households receive Supplemental Nutrition Assistance Program (SNAP) benefits. The value for the report area is less than the national average of 12.22%. This indicator is relevant because it assesses vulnerable populations which are more likely to have multiple health access, health status, and social support needs; when combined with poverty data, providers can use this measure to identify gaps in eligibility and enrollment.

| Report Area | Total Households | Households Receiving SNAP Benefits | Percent Households Receiving SNAP Benefits |
|---------------------|------------------|------------------------------------|--------------------------------------------|
| Franklin County, IA | 4,200 | 455 | 10.83% |

Student Reading Proficiency (4th Grade)

Information about student performance in the 4th grade English Language Arts portion of the state-specific standardized tests are displayed in the table below. Of 137 students tested, 73.3% of 4th graders performed at or above the "proficient" level, and 26.7% tested below the "proficient" level, according to the latest data. Students in the report area tested better than the statewide rate of 73.2%.

| Report Area | Students with Valid Test Scores | Students Scoring 'Proficient' or Better, Percent | Students Scoring 'Not Proficient' or Worse, Percent |

Physical Environment

Air Quality - Ozone

Within the report area, 0, or 0.00% of days exceeded the emission standard of 75 parts per billion (ppb). This indicator reports the percentage of days per year with Ozone (O3) levels above the National Ambient Air Quality Standard of 75 parts per billion (ppb). Figures are calculated using data collected by monitoring stations and modeled to include census tracts where no monitoring stations exist. This indicator is relevant because poor air quality contributes to respiratory issues and overall poor health.

| Report Area | Total Population | Average Daily Ambient Ozone Concentration | Number of Days Exceeding Emissions Standards | Percentage of Days Exceeding Standards, Crude Average | Percentage of Days Exceeding Standards, Pop. Adjusted Average |
|---------------------|------------------|-------------------------------------------|----------------------------------------------|-------------------------------------------------------|---------------------------------------------------------------|

Climate & Health - Drought Severity

Drought is defined as a moisture deficit bad enough to have social, environmental or economic effects. The Drought Monitor map identifies areas of drought and labels them by intensity¹. D1 is the least intense level and D4 the most intense. In the report area, 0.00% of weeks during the 2017-2019 period were spent in drought (any level). An additional 9.79% of weeks were categorized spent in "abnormally dry conditions" (D0) indicating that drought could occur, or that the area is recovering from drought but are not yet back to normal.

| Report Area | Time Period | Weeks in D0 (Abnormally Dry), Percent | Weeks in D1 (Moderate Drought), Percent | Weeks in D2 (Severe Drought), Percent | Weeks in D3 (Extreme Drought), Percent | Weeks in D4 (Exceptional Drought), Percent | Weeks in Drought (Any), Percent |

Climate & Health - High Heat Index Days

This indicator reports the percentage of recorded weather observations with heat index values over 103 degrees Fahrenheit. The "heat index" is a single value that takes both temperature and humidity into account. The higher the heat index, the

hotter the weather feels, since sweat does not readily evaporate and cool the skin. The heat index is a better measure than air temperature alone for estimating the risk to workers from environmental heat sources.

| Report Area | Total Weather Observations | Average Heat Index Value | Observations with High Heat Index Values | Observations with High Heat Index Values, Percentage |

Food Access - Food Desert Census Tracts

This indicator reports the number of neighborhoods in the report area that are within food deserts. The USDA Food Access Research Atlas defines a food desert as any neighborhood that lacks healthy food sources due to income level, distance to supermarkets, or vehicle access. The report area has a population of 5,958 living in food deserts and a total of 2 census tracts classified as food deserts by the USDA.

| Report Area | Total Population (2010) | Food Desert Census Tracts | Other Census Tracts | Food Desert Population | Other Population |

Food Access - Grocery Stores

Healthy dietary behaviors are supported by access to healthy foods, and Grocery Stores are a major provider of these foods. There are 4 grocery establishments in the report area, a rate of 3.75 per 10,000 population. Grocery stores are defined as supermarkets and smaller grocery stores primarily engaged in retailing a general line of food, such as canned and frozen foods; fresh fruits and vegetables; and fresh and prepared meats, fish, and poultry. Delicatessen-type establishments are also included. Convenience stores and large general merchandise stores that also retail food, such as supercenters and warehouse club stores, are excluded.

Food Access - Modified Retail Food Environment Index

This indicator reports the percentage of population living in census tracts with no or low access to healthy retail food stores. Figures are based on the CDC Modified Retail Food Environment Index. For this indicator, low food access tracts are considered those with index scores of 10.0 or less.

| Report Area | Total Population | Percent Population in Tracts with No Food Outlet | Percent Population in Tracts with No Healthy Food Outlet | Percent Population in Tracts with Low Healthy Food Access | Percent Population in Tracts with Moderate Healthy Food Access | Percent Population in Tracts with High Healthy Food Access |

Food Access - SNAP-Authorized Food Stores

This indicator reports the number of SNAP-authorized food stores as a rate per 10,000 population. SNAP-authorized stores include grocery stores as well as supercenters, specialty food stores, and convenience stores that are authorized to accept SNAP (Supplemental Nutrition Assistance Program) benefits. The report area contains 14 total SNAP-Authorized Retailers with a rate of 13.11.

| Report Area | Total Population (2010) | Total SNAP-Authorized Retailers | SNAP-Authorized Retailers, Rate per 10,000 Population |

Food Access - WIC-Authorized Food Stores

This indicator reports the number of food stores and other retail establishments per 100,000 population that are authorized to accept WIC Program (Special Supplemental Nutrition Program for Women, Infants, and Children) benefits and that carry

designated WIC foods and food categories. This indicator is relevant because it provides a measure of food security and healthy food access for women and children in poverty as well as environmental influences on dietary behaviors.

Housing - Housing Unit Age

This indicator reports, for a given geographic area, the median year in which all housing units (vacant and occupied) were first constructed. The year the structure was built provides information on the age of housing units. These data help identify new housing construction and measures the disappearance of old housing from the inventory, when used in combination with data from previous years. This data also serves to aid in the development of formulas to determine substandard housing and provide assistance in forecasting future services, such as energy consumption and fire protection. There are a total 4,868 housing units in the report area, and the median year built is 1951.

| Report Area | Total Housing Units | Median Year Structures Built |
|---------------------|---------------------|------------------------------|
| Franklin County, IA | 4,868 | 1951 |
| Iowa | 1,386,722 | 1969 |

Overcrowded Housing (Over 1 Person/Room), Percent by Tract, ACS 2014-18

Housing - Substandard Housing

This indicator reports the number and percentage of owner- and renter-occupied housing units having at least one of the following conditions: 1) lacking complete plumbing facilities, 2) lacking complete kitchen facilities, 3) with 1 or more occupants per room, 4) selected monthly owner costs as a percentage of household income greater than 30%, and 5) gross rent as a percentage of household income greater than 30%. Selected conditions provide information in assessing the quality of the housing inventory and its occupants. This data is used to easily identify homes where the quality of living and housing can be considered substandard. Of the 4,200 total occupied housing units in the report area, 737 or 17.55% have one or more substandard conditions.

| Report Area | Total Occupied Housing Units | Occupied Housing Units with One or More Substandard Conditions | Occupied Housing Units with One or More Substandard Conditions, Percent |
|---------------------|------------------------------|----------------------------------------------------------------|-------------------------------------------------------------------------|
| Franklin County, IA | 4,200 | 737 | 17.55% |
| Iowa | 1,256,855 | 295,992 | 23.55% |
| United States | 119,730,128 | 38,964,205 | 32.54% |

Occupied Housing Units with One or More Substandard Conditions, Percent

Substandard Housing Units, Percent of Total by Tract, ACS 2014-18

Substandard Housing: Number of Substandard Conditions Present

| Report Area | No Conditions | One Condition | Two or Three Conditions | Four Conditions |
|---------------------|---------------|---------------|-------------------------|-----------------|
| Franklin County, IA | 82.45% | 16.83% | 0.71% | 0.00% |
| Iowa | 76.45% | 22.52% | 1.03% | 0.00% |
| United States | 67.46% | 30.62% | 1.91% | 0.01% |

Substandard Housing: Households Lacking Complete Plumbing Facilities

Complete plumbing facilities include: (a) hot and cold running water, (b) a flush toilet, and (c) a bathtub or shower. All three facilities must be located inside the house, apartment, or mobile home, but not necessarily in the same room. Housing units are classified as lacking complete plumbing facilities when any of the three facilities is not present.

| Report Area | Occupied Housing Units | Housing Units Lacking Complete Plumbing Facilities | Housing Units Lacking Complete Plumbing Facilities, Percent |
|---------------------|------------------------|----------------------------------------------------|-------------------------------------------------------------|
| Franklin County, IA | 4,200 | 3 | 0.07% |
| Iowa | 1,256,855 | 3,527 | 0.28% |
| United States | 119,730,128 | 472,098 | 0.39% |

Substandard Housing: Households Lacking Complete Kitchen Facilities

A unit has complete kitchen facilities when it has all three of the following facilities: (a) a sink with a faucet, (b) a stove or range, and (c) a refrigerator. All kitchen facilities must be located in the house, apartment, or mobile home, but they need not be in the same room. A housing unit having only a microwave or portable heating equipment such as a hot plate or camping stove should not be considered as having complete kitchen facilities. An icebox is not considered to be a refrigerator.

| Report Area | Occupied Housing Units | Housing Units Lacking Complete Kitchen Facilities | Housing Units Lacking Complete Kitchen Facilities, Percent |
|---------------------|------------------------|---------------------------------------------------|------------------------------------------------------------|
| Franklin County, IA | 4,868 | 162 | 3.33% |
| Iowa | 1,386,722 | 35,045 | 2.53% |
| United States | 136,384,292 | 3,867,311 | 2.84% |

Substandard Housing: Households Lacking Telephone Service

A telephone must be in working order and service available in the house, apartment, or mobile home that allows the respondent to both make and receive calls. Households that have cell-phones (no land-line) are counted as having telephone service available. Households whose service has been discontinued for nonpayment or other reasons are not counted as having telephone service available.

| Report Area | Housing Units Lacking Telephone Service | Housing Units Lacking Telephone Service | Owner-Occupied Units Lacking Telephone Service | Owner-Occupied Units Lacking Telephone Service | Renter-Occupied Units Lacking Telephone Service | Renter-Occupied Units Lacking Telephone Service |
|---------------------|-----------------------------------------|-----------------------------------------|------------------------------------------------|------------------------------------------------|-------------------------------------------------|-------------------------------------------------|
| Franklin County, IA | 99 | 2.36% | 50 | 1.60% | 49 | 4.54% |
| Iowa | 27,725 | 2.21% | 13,833 | 1.55% | 13,892 | 3.83% |
| United States | 2,607,717 | 2.18% | 1,108,891 | 1.45% | 1,498,826 | 3.46% |

Housing - Vacancy Rate

This indicator reports the number and percentage of housing units that are vacant. A housing unit is considered vacant by the American Community Survey if no one is living in it at the time of interview. Units occupied at the time of interview entirely by persons who are staying two months or less and who have a more permanent residence elsewhere are considered to be temporarily occupied, and are classified as “vacant.”

| Report Area | Total Housing Units | Vacant Housing Units | Vacant Housing Units, Percent |
|---------------------|---------------------|----------------------|-------------------------------|
| Franklin County, IA | 4,868 | 668 | 13.72% |
| Iowa | 1,386,722 | 129,867 | 9.37% |
| United States | 136,384,292 | 16,654,164 | 12.21% |

Liquor Store Access

There are 0 establishments in the report area primarily engaged in retailing packaged alcoholic beverages, such as ale, beer, wine, and liquor. The number of liquor stores per 10,000 population provides a measure of environmental influences on dietary behaviors and the accessibility of healthy foods. Note this data excludes establishments preparing and serving alcohol for consumption on premises (including bars and restaurants) or which sell alcohol as a secondary retail product (including gas stations and grocery stores).

| Report Area | Total Population (2010) | Number of Establishments | Establishments, Rate per 10,000 Population |

Access to Primary Care

This indicator reports the number of primary care physicians per 100,000 population. Doctors classified as "primary care physicians" by the AMA include: General Family Medicine MDs and DOs, General Practice MDs and DOs, General Internal Medicine MDs and General Pediatrics MDs. Physicians age 75 and over and physicians practicing sub-specialties within the listed specialties are excluded. This indicator is relevant because a shortage of health professionals contributes to access and

health status issues.

Within the report area there are 3 primary care physicians serving a population of 10,159. This means there is a rate of 29.53 primary care physicians for every 100,000 people.

| Report Area | Total Population (2017) | Primary Care Physicians (2017) | Primary Care Physicians, Rate per 100,000 Pop. |

Cancer Screening - Mammogram

This indicator reports the percentage of female Medicare beneficiaries age 35 and older who had a mammogram in most recent reporting year. The American Cancer Society recommends that women age 45 to 54 should get a mammogram every

year, and women age 55 and older should get a mammogram every other year. In the latest reporting period there were 2,097 Medicare beneficiaries in the report area, and 40% of female beneficiaries age 35 or older had a mammogram in the past year. The rate in the report area was higher than the state rate of 39% during the same time period.

| Report Area | Medicare Beneficiaries | Female Beneficiaries with Recent Mammogram, Percent |
|---------------------|------------------------|-----------------------------------------------------|
| Franklin County, IA | 2,097 | 40% |

Diabetes Management - Hemoglobin A1c Test

This indicator reports the percentage of diabetic Medicare patients who have had a hemoglobin A1c (hA1c) test, a blood test which measures blood sugar levels, administered by a health care professional in the past year. In the report area, 152 Medicare enrollees with diabetes have had an annual exam out of 177 Medicare enrollees in the report area with diabetes, or 85.9%. This indicator is relevant because engaging in preventive behaviors allows for early detection and treatment of health problems. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

| Report Area | Total Medicare Enrollees | Medicare Enrollees with Diabetes | Medicare Enrollees with Diabetes with Annual Exam | Medicare Enrollees with Diabetes with Annual Exam, Percent |

Federally Qualified Health Centers

This indicator reports the number of Federally Qualified Health Centers (FQHCs) in the community. This indicator is relevant because FQHCs are community assets that provide health care to vulnerable populations; they receive extra funding from the federal government to promote access to ambulatory care in areas designated as medically underserved.

Within the report area, there are 0 Federally Qualified Health Centers. When adjusted to a standard population, there is a rate of 0.00 Federally Qualified Health Centers for every 100,000 persons.

| Report Area | Total Population (2010) | Number of Federally Qualified Health Centers | Rate of Federally Qualified Health Centers per 100,000 Population |

Note: No county data available. See data source and methodology for more details.

Lack of a Consistent Source of Primary Care

This indicator reports the percentage of adults aged 18 and older who self-report that they do not have at least one person who they think of as their personal doctor or health care provider. This indicator is relevant because access to regular primary care is important to preventing major health issues and emergency department visits.

| Report Area | Survey Population (Adults Age 18+) | Total Adults Without Any Regular Doctor | Percent Adults Without Any Regular Doctor |
|---------------------|------------------------------------|-----------------------------------------|-------------------------------------------|
| Franklin County, IA | No data | No data | No data |
| Iowa | 2,312,665 | 414,647 | 17.93% |
| United States | 236,884,668 | 52,290,932 | 22.07% |

Percent Adults Without Any Regular Doctor

Note: This indicator is compared to the state average.

Lack of Prenatal Care

This indicator reports the percentage of women who do not obtain prenatal care during their first trimester of pregnancy. This indicator is relevant because engaging in prenatal care decreases the likelihood of maternal and infant health risks. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

| Report Area | Total Births | Mothers Starting Prenatal Care in First Semester | Mothers with Late or No Prenatal Care | Prenatal Care Not Reported | Percentage Mothers with Late or No Prenatal Care |

Pneumonia Vaccination

This indicator reports the percentage of adults aged 65 and older who self-report that they have ever received a pneumonia

vaccine. This indicator is relevant because engaging in preventive behaviors decreases the likelihood of developing future health problems. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

| Report Area | Total Population Age 65+ | Estimated Population with Annual Pneumonia Vaccination | Crude Percentage | Age-Adjusted Percentage |

Population Living in a Health Professional Shortage Area

This indicator reports the percentage of the population that is living in a geographic area designated as a "Health Professional Shortage Area" (HPSA), defined as having a shortage of primary medical care, dental or mental health professionals. This indicator is relevant because a shortage of health professionals contributes to access and health status issues.

| Report Area | Total Population (ACS 2017 5-Year Estimates) | Population Living in an Area Affected by a HPSA | Percentage of Population Living in an Area Affected by a HPSA | Percentage of HPSA Population Underserved |

Preventable Hospital Events

This indicator reports the preventable hospitalization rate among Medicare beneficiaries for the latest reporting period. Preventable hospitalizations include hospital admissions for one or more of the following conditions: diabetes with short-term complications, diabetes with long-term complications, uncontrolled diabetes without complications, diabetes with lower-extremity amputation, chronic obstructive pulmonary disease, asthma, hypertension, heart failure, bacterial pneumonia, or urinary tract infection. Rates are presented per 100,000 beneficiaries. In the latest reporting period there were 2,097 Medicare beneficiaries in the report area. The preventable hospitalization rate was 3,272. The rate in the report area was lower than the state rate of 3,711 during the same time period.

| Report Area | Medicare Beneficiaries | Preventable Hospitalizations, Rate per 100,000 Beneficiaries |
|---------------------|------------------------|--------------------------------------------------------------|
| Franklin County, IA | 2,097 | 3,272 |
| Iowa | 462,029 | 3,711 |
| United States | 33,648,235 | 4,624 |

Health Behaviors

Alcohol Consumption

This indicator reports the percentage of adults aged 18 and older who self-report heavy alcohol consumption (defined as more than two drinks per day on average for men and one drink per day on average for women). This indicator is relevant because current behaviors are determinants of future health and this indicator may illustrate a cause of significant health issues, such as cirrhosis, cancers, and untreated mental and behavioral health needs. Within the report area, 18.00% adults drink excessively.

| Report Area | Population Age 18+ | Estimated Adults Drinking Excessively | Excessive Drinking, Crude Percentage | Excessive Drinking, Age-Adjusted Percentage |
|---------------------|--------------------|---------------------------------------|--------------------------------------|---------------------------------------------|
| Franklin County, IA | 8,175.00 | 1,300 | 15.90% | 18.00% |

Health Outcomes

Asthma Prevalence

This indicator reports the percentage of adults aged 18 and older who self-report that they have ever been told by a doctor, nurse, or other health professional that they had asthma. This indicator is relevant because asthma is a prevalent problem in the U.S. that is often exacerbated by poor environmental conditions.

| Report Area | Survey Population (Adults Age 18+) | Total Adults with Asthma | Percent Adults with Asthma |
|---------------------|------------------------------------|--------------------------|----------------------------|
| Franklin County, IA | No data | No data | No data |

Low Birth Weight

This indicator reports the percentage of total births that are low birth weight (Under 2500g). This indicator is relevant because low birth weight infants are at high risk for health problems. This indicator can also highlight the existence of health disparities. Out of a total 938 live births in the report area, 62 or 6.60% were considered low birth weight.

| Report Area | Total Live Births | Low Weight Births (Under 2500g) | Low Weight Births, Percent |

Mortality - Cancer

This indicator reports the rate of death due to malignant neoplasm (cancer) per 100,000 population. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because cancer is a leading cause of death in the United States.

In the report area, there were 23 average annual deaths due to cancer among the total population of 10,323. The age adjusted death rate of 139.6 per every 100,000 people is less than the state's reported rate of 163.20.

| Report Area | Total Population | Average Annual Deaths, 2013-2017 | Crude Death Rate (Per 100,000 Pop.) | Age-Adjusted Death Rate (Per 100,000 Pop.) |
|---------------------|------------------|----------------------------------|-------------------------------------|--------------------------------------------|

Mortality - Lung Disease

This indicator reports the rate of death due to chronic lower respiratory disease per 100,000 population. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummairized for report areas from county level data, only where data is available. This indicator is relevant because lung disease is a leading cause of death in the United States.

| Report Area | Total Population | Average Annual Deaths, 2013-2017 | Crude Death Rate (Per 100,000 Pop.) | Age-Adjusted Death Rate (Per 100,000 Pop.) |

Mortality - Pedestrian Motor Vehicle Crash

Motor vehicle crash deaths are preventable and are a leading cause of death among young persons. In the report area, there were 0 pedestrians killed by motor vehicles during the multi-year report period. The annual (crude) mortality rate for the report area is 0.0, which is lower than the state average of 1.6.

Note: Fatality counts are based on the location of the crash and not the decedent's residence.

| Report Area | Total Population (2010) | Pedestrian Deaths (2014-2018) | Pedestrian Deaths, Annual Rate per 100,000 Pop. |
|---------------------|-------------------------|-------------------------------|-------------------------------------------------|

Mortality - Premature Death

This indicator reports Years of Potential Life Lost (YPLL) before age 75 per 100,000 population for all causes of death, age-adjusted to the 2000 standard. YPLL measures premature death and is calculated by subtracting the age of death from the 75 year benchmark. This indicator is relevant because a measure of premature death can provide a unique and comprehensive look at overall health status.

In the report area, there were 118 premature deaths, leading to the loss of 1,778 potential years of life. The rate of years lost is 6,497 per every 100,000 people, which is greater than the state's loss rate of 6,257.

| Report Area | Premature Deaths, 2016-2018 | Years of Potential Life Lost, 2016-2018 Average | Years of Potential Life Lost, Rate per 100,000 Population |

Poor Dental Health

This indicator reports the percentage of adults age 18 and older who self-report that six or more of their permanent teeth have been removed due to tooth decay, gum disease, or infection. This indicator is relevant because it indicates lack of access to dental care and/or social barriers to utilization of dental services.

| Report Area | Population Age 18 | Adults with Poor Dental Health | Adults with Poor Dental Health, Percent |
|---------------------|-------------------|--------------------------------|-----------------------------------------|
| Franklin County, IA | 8,183.00 | 0.00 | 0.0% |
| Iowa | 2,307,562.00 | 341,535.00 | 14.8% |
| United States | 235,375,690.00 | 36,842,620.00 | 15.7% |

Note: This indicator is compared to the state average.
