Put an X through the squares of fruits, vegetables and physical activities you try. Get five in a row, column or diagonally for a BINGO!
Dear Parents and Caregivers:

Your child is participating in a nutrition education program at school this year called Pick a better snack™. The program helps kids eat more fruits and vegetables by giving them a positive experience with healthy foods.

Each month your child will bring home a bingo card (like this one) and a newsletter. We encourage you to try the foods and activities with your child. Then return the card with a bingo to school.

Thanks for participating and stay well!

Ask Your Child

What did you eat at school today?

Ask me about CANTALOUPE
Ask me about ZUCCHINI
Ask me about TOMATOES

60 Minutes of Fun!

Physical activity is great for kids! Kids need at least 60 minutes of physical activity every day. Physical activity helps your child feel better, stay focused, sleep well and stress less. Plus, it strengthens their bones and muscles and promotes a healthy weight. No need to go to the gym or compete in an expensive sport. As long as your child is moving their body, it counts as physical activity! How does your child like to play?
